## PROFILE

In 2021, we selected the grapes from the Pinheiro Ramudo vineyard, harvested in the second week of September. The classic vinification of guard reds was followed by an aging for 23 months in French oak barrels. The profile of 2021, a normal year and during the maturation period with moderate temperatures and large temperature ranges day and night, allowed a perfect maturation resulting in a full-bodied and aromatically exuberant profile, with surprisingly good acidity and a structure supported by soft tannins as characteristic of the Syrah's from the sands of Poceirão.

## TASTING NOTES

Very deep red color, intense aromas dominated by notes of fruit, as a composition of plum, cherry and spices. In the mouth it is dense, enveloping, with a well marked acidity. Structured and persistent.

## ANALYSIS

ALCOHOL (%VOL.): 14

TOTAL ACIDITY (g/l AT): 6,1

PH: 3,45

SO<sub>2</sub>: 101

TOTAL SUGAR GLUC/FRUT (G/L): 1,6

FOOD ALLERGENS: Contains Sulphites

## FOOD PAIRING

It is the ideal accompaniment for cheeses and meat dishes .

## HISTORY

In the 90s the company invested on the introduction of new varieties, of different origins, in the region of Peninsula of Setúbal. With these new plantations, it was made the plan to create wines from a single grape variety. One of the chosen was the Syrah, the famous grape variety of "Côte du Rhône" that was planted in our vineyards "Carrasqueira", "Pinheiro Ramudo" and "Tátá" in the area of Poceirão (Palmela). Its poor sandy terrains and the strong daily and annual temperature fluctuations favor the obtaining of complex wines with local personality. The first 100% wine of this variety was from the 1999 harvest.
